# Directory of Recognised In-house R & D Units

SEPTEMBER 1991

**Ministry of Science and Technology  
Department of Scientific & Industrial Research  
New Delhi**

## **PREFACE**

Over the years a strong Science & Technology infrastructure has been established in the country. This covers a chain of National Laboratories, specialised research centres, various R&D and academic institutions, training centres, etc. This infrastructure is to provide expertise, technically trained manpower and technological support to the industry. Various policy measures and organisational structures have also been evolved from time to time to meet the changing industrial and technological requirements of the country.

The Government has been giving special attention to promotion and support to industrial research in industry. Providing equity and loans to public sector undertakings has resulted in their establishing In-house R&D Units. Simultaneously, several tax incentives have also been provided which encourage and make it financially attractive for private sector industrial units to establish their own In-house R&D Units.

A scheme for granting recognition to In-house R&D Units in industrial sector was started in 1973. The scheme is being operated by the Department of Scientific and Industrial Research (DSIR) in the Ministry of Science and Technology. One of the objects of this scheme is to provide liberalised import facility to recognised R&D Units. The R&D Units recognised under the scheme can import under OGL their requirements of raw materials and components; in addition they can also import equipment for their R&D work leading to upgradation of technology, introducing new products/processes or effecting improvements in the manufacturing process, etc. At present there are 1186 In-house R&D Units having valid recognition; of these over 100 units are in public sector.

A Directory of recognised In-house R&D Units was first brought out in December 1983; revised and updated versions were brought out in February 1985, November 1986, December 1987, December 1988, August 1989 and August, 1991. Since then a number of new R&D Units have been recognised as also recognition granted to some units has lapsed. The present edition of the Directory lists 1186 In-house R&D Units, giving their registration number, name and mailing address of the firm, location of the In-house R&D Unit(s), and the last date of validity of recognition.

The main purpose of bringing out this Directory is to provide a reference source for various industries, Government Departments, R&D Institutions and others who may like to take the opportunity of initiating interaction with the In-house R&D Units in various disciplines of industrial R&D.
