workshop on

# Technology Development, Utilization & Transfer in North Eastern Region

HOTEL LANDMARK  
B. BARUAH ROAD, GUWAHATI  
30th MARCH, 2005

Jointly Organised by:

**Department of Scientific & Industrial Research**  
Ministry of Science & Technology  
Govt. of India, New Delhi

**North Eastern Industrial & Technical Consultancy  
Organization Limited (NEITCO)**

## About the Workshop

Scientific Research and Technology Developments are important in the present world scenario for growth of any nation. The relationship between technology and economic development needs thorough understanding of policies implemented by resources providers like the Department of Scientific & Industrial Research, Government of India. The domain of technology development, utilization and transfer (TDUT) has five stakeholder groups i.e. Technology producer, Technology consumer, Product producer, Product consumer and resources providers. There is a need for institutional infrastructure for generation of new technology and adoption of successful technology to meet the distinct specific requirements of industry. In this context, the DSIR has plans to organize a series of conferences in various regions of the country. The event for the North Eastern region will be hosted by NEITCO, Guwahati. The one-day programme, it is hoped, will open up new avenues to the researchers, academicians, industrial research groups, government officials, entrepreneurs and consultants in this part of the country.

## About DSIR, Govt. of India

The Department of Scientific & Industrial Research (DSIR) under the Ministry of Science & Technology is the nodal Government Department for matters pertaining to industrial R&D and implementation of fiscal incentives for scientific research announced by the Government of India from time to time. The department is actively engaged in promoting technology development activities in the country through its various departmental programmes since its inception. It also has a mandate to carryout the activities relating to indigenous technology promotion, development, utilization and transfer.

The departmental programmes are focused to promote R&D by industry, support a larger cross section of small & medium industrial units (SMEs) to develop state-of-the-art globally competitive technologies of high commercial potential, catalyze faster commercialization of lab-scale R&D enhance the share of technology intensive exports in overall exports strengthen the industrial consultancy and technology management capabilities. It also strives to establish user-friendly information networks to facilitate scientific and industrial research in the country. DSIR also provides a link between

scientific laboratories and industrial establishments for transfer of technology and facilitates investment in R&D. The objectives detailed above are sought to be achieved through:

- Technology Promotion Development and Utilization (TPDU)
- National Research Development Corporation (NRDC)
- Central Electronics Limited (CEL)
- Council of Scientific & Industrial Research (CSIR) and
- Consultancy Development Centre (CDC)

## **About NEITCO, Guwahati**

The North Eastern Industrial & Technical Consultancy Organization Ltd. (NEITCO), Guwahati is a premier consultancy organization set up in 1973 by the all India financial institutions, nationalized banks and state corporations under the aegis of the Industrial Development Bank of India (IDBI) to cater to the consultancy needs of small and medium industries in the North Eastern region.

With a rich heritage of over three decades, NEITCO offers specialized services in the areas of project formulation and implementation, human resource development, environmental resources management, tourism, infrastructure development, market surveys, diagnostic studies, industrial potential surveys, growth centre, EPIPs, RIPs etc. to mention a few.

NEITCO is a pioneer in systematic entrepreneurship development movement in the hitherto industrially backward north eastern region and has since conducted a large number of Entrepreneurship Development Programmes (EDPs). NEITCO thus assumes the role of a resource institution to inculcate entrepreneurial culture and spirit.

NEITCO also does its bit in promoting self-employment at grass-root level through a number of Vocational Training Programmes/ Skill Development Programmes with the help of the Department of Science & Technology, Government of India.

In its quest for broadening the activities, NEITCO has since entered into a MoU with the Indian Institute of Technology (IIT), Guwahati for technical tie-up for specialized assignments.

## Programme

Date: 30<sup>th</sup> March 2005

0900 – 0945 hrs : Registration

0945 – 1045 hrs : Inaugural Session
